

EFFECTIVE

April 1, 2021.

Subject(s)

FOM 903-9, Case Service Payments

This policy was updated to clarify the payment processes for several case services.

A new form, MDHHS-5855, Orthodontic Payment Agreement, was created to simplify the process of requesting orthodontic services.

Details were added to the transportation section to include the current and historical mileage rates.

Updates were added to the assisted care and one-on-one supervision sections clarifying that they are paid from either title IV-E or limited term fund sources. Neither of these services are paid from state ward board and care (SWBC) or county child care funds (CCF) effective 11/1/19.

A new section was added detailing how payments are made to qualified residential treatment program (QRTP) residents for aftercare services. There are new service codes in MiSACWIS for this case service.
